Nashville B-Bender Telecaster

011-8342

Pos1: Neck
Pos2: Neck + Middle
Pos3: Neck + Bridge
Pos4: Middle + Bridge
Pos5: Bridge

- Usually led trough hole in pickup cavity and seated under bridge with frayed wires.
- Can also be done this way with a ground lug sandwiched between bridge and pickup.
- Also recommended to wire ground straight to jack (This removes clutter if you are to work on the wiring in the future)

But you can wire to pot like normal if you wish.
