

Standard Telecaster Wiring 80s

80s Era Wiring with Treble Bleed and .05uf Cap

3-Way Switch

Pos.1: Neck Pickup
Pos.2: Neck+Bridge Pickup
Pos.3: Bridge Pickup

Mono Jack Out

- Usually led trough hole in pickup cavity and seated under bridge with frayed wires.
 - Can also be done this way with a ground lug sandwiched between bridge and pickup.
 - Also recommended to wire ground straight to jack (This removes clutter if you are to work on the wiring in the future)
- But you can wire to pot like normal if you wish.
